DETAILED ACTION

Allowable Subject Matter

1. Claims 24 – 28, 13 – 22; 32 – 40 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art made of record, in single or in combination, fails to disclose the limitations of:

"each common memory switch of said plurality of switch modules has a data memory logically divided into: a first section for storing a first set of data segments, where said first set of data segments are received from data sources; a second section for storing a second set of data segments, where said second set of data segments are destined for particular switch modules among said plurality of switch modules, said second section logically divided into a number of sub-sections, each sub-section of said number of sub-sections corresponding to one temporal cyclical rotator among said plurality of said temporal cyclical rotators; and a third section for storing data segments directly destined for data sinks" as claimed in claim 24;

"wherein, at a given switch module of said plurality of switch modules, said receiving further comprises: writing a first data segment, received from a data source subtending to said given switch module, in a shipping section of a memory device associated with said given switch module; writing a second data segment, received from one of said switch modules, in a transit section in said memory device; and writing a third data segment, received from another of said switch modules, in a receiving section in said memory device" as claimed in claim 32.

"scheduling an exchange of said data segments through said temporal cyclical rotators while excluding from consideration a selected one of said temporal cyclical rotators; extending a rotation configuration of said selected one of said temporal cyclical rotators of said array" as disclosed in claim 39.

Art Unit: 2419

3. Additionally, all of further limitations in claims 25 – 28, 13 – 22, 33 – 38, 40 are allowable since the claims are dependent upon the claims 24, and 32, 39 respectively.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
